Description of the first aid measures

In all cases if the damage to health occurred, seek immediate medical attention. If a person is unconscious do not give any water/ do not put anything into the mouth. In If substance/mixture poisoning case was discovered immediately contact the nearest Poisons control and information centre.

After inhalation

If inhalation of solution's aerosols or vapors has occurred, immediately stop the contact - take out a suffering person to the fresh air, provide a peace. If respiratory impairment has occurred seek medical advice. If a person lost consciousness, lay him down steadily on a side and carry to the medical institution.

After skin contact

Immediately remove all contaminated clothing, at least 10 – 15 minutes wash with plenty of water. If symptoms of damage develop, seek medical advice.

After eye contact

Rinse opened eye as soon as possible, wash eyes with running water lifting and lowering eyelids. If symptoms of damage
