

# Tulpe Rapid H

## MWW detergent for use in hard water.

**Tulpe Rapid H** is a concentrated liquid dishwashing detergent for washing dishes automatically in hard water conditions. **Tulpe Rapid H** is powerful alkaline liquid washing detergent which is suitable for use in washing machines. It contains sodium hydroxide, which provides excellent grease and dried food residue and stain removal results. Containing inhibitors and sequestrants allows detergent to use in hard water conditions.

### **Tulpe Rapid H:**

- quickly breaks down grease and dried food;
- very economical due to the highly concentrated;
- protects the equipment from fast calcification in hard water.

### **Content of product**

Submitted in safety data sheet.

### **Instructions for use**

**Tulpe Rapid H** is used with automatic dispensing equipment installed washing machines. For good wash results, the concentration is used 1,5 - 4 ml / l depending on local conditions. When detergent concentration is used 2 ml/l, it will be prevent the formation of lime deposits in water with a hardness of up to 205 ppm CaCO<sub>3</sub>. Before use, rinse the dosing pumps and transport hoses in order to prevent possible crystallization on mixed detergents.

### **Information for safe use**

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet. Store in original container. Keep container in the temperature -10°C ÷ +35°C.
