

SAFETY DATA SHEET

According to Commission Regulation (EU) No. 2015/ 830 Annex

	TULPE FORWARD	The date of compilation:	2010-04-12
		Revision:	2016-05-02
		Version No.	6

1. IDENTIFICATION OF THE SUBSTANCE/ MIXTURE AND OF THE COMPANY/ UNDERTAKING

Product identifier	Tulpe Forward
Relevant identified uses of the substance/ mixture and uses advised against	Cleaning/ maintenance detergent for professional use – alkaline low foaming floor cleaner.
Supplier/ Manufacturer	UAB „BS Chemical“, Baltijos pr. 123-9, LT-93224 Klaipeda, Lithuania, tel./fax.: +370 46 366279, www.bs-chemical.com
E-mail address for a competent person responsible for the safety data sheet	dovile@bs-chemical.lt
Emergency telephone number	112 (in Member State of EU). Lithuania: +370 5 236 20 52, +370 687 533 78. Service is available 24 hours. Estonia: 16662, calling from abroad (+372) 626 93 90. Hours of operation are during weekdays from Monday 9AM to Saturday 9AM (closed on Sunday and on national holidays). Latvia: +371 67042473. Service is available 24 hours. Norway: 22 59 13 00. Poland: + 48 58 349 28 31, + 48 12 646 87 06, + 48 61 848 10 11, + 48 22 619 66 54 ext. 1240. 113 (in Member State of CIS). Russia: 8 (495) 621-68-85; 8 (495) 621-68-85. Belarus: +375 17 385 14 22.

2. HAZARDS IDENTIFICATION

Classification of the substance/ mixture and label elements	Signal word: Danger Hazard class: Skin corrosion/irritation, category 2; Serious eye damage/eye irritation, category 1. Hazard statements: H315 Causes skin irritation. H318 Causes serious eye damage. Precautionary statements: P280 Wear protective gloves/ protective clothing/ eye (face) protection. P302+P353 IF ON SKIN: Rinse skin with water/ shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTER or doctor.	 GHS05
--	---	--

SAFETY DATA SHEET

According to Commission Regulation (EU) No. 2015/ 830 Annex

	TULPE FORWARD	The date of compilation:	2010-04-12
		Revision:	2016-05-02
		Version No.	6

P332+P313 If skin irritation occurs: Get medical advice/attention.

Other hazards Substance/ mixture does not meet the PBT or vPvB classification criteria; at the time MSDS' compilation substances are not on the candidate SVHC (very high concern) list.

3. COMPOSITION/ INFORMATION ON INGREDIENTS

Description of substance/ mixture Solution, mixture of substances listed below with no hazardous additions.

Hazardous components:

No	CAS No	EC No	Index No	Mass fraction, %	Chemical name, <i>registration number</i>	Classification
1.	64-02-8	200-573-9	607-428-00-2	5 – 15	tetrasodium ethylene diamine tetraacetate <i>01-2119486762-27-0005</i>	Acute Tox. 4* H302 Eye Dam. 1 H318

Note: risk phrases and other signs are listed in Sections 2 and 16.

Components according to EU Detergents Regulation No. 551/2009:

EDTA and its salts	5 – 15
Nonionic surfactants	< 5
Aromatic hydrocarbons (d-Limonene, Citral)	

4. FIRST AID MEASURES

Description of first aid measures:

Information of the first aid	In all cases if the damage to health occurred, seek immediate medical attention. Take off contaminated clothing. If a person is unconscious do not give any water/ do not put anything into the mouth. In If substance/mixture poisoning case was discovered immediately contact the nearest Poisons control and information centre.
After inhalation	If inhalation of solution's aerosols or vapors has occurred, immediately stop the contact - take out a suffering person to the fresh air, provide a peace. If respiratory impairment has occurred seek medical advice. If a person lost consciousness, lay him down steadily on a side and carry to the medical institution.
After skin contact	Immediately remove all contaminated clothing, at least 10 – 15 minutes wash with plenty of water. If symptoms of damage develop, seek medical advice.
After eye contact	Rinse opened eye as soon as possible, at least 10 – 15 minutes wash eyes with running water lifting and lowering eyelids. Remove contact lenses, if they present and it is easy to do. Seek immediate medical attention.
After swallowing	Do not induce vomiting, do not give activated carbon. If a person is conscious, remove substance residues from mouth, rinse it with water, do not drink water and seek immediate medical attention.

Most important symptoms and effects (acute and delayed):

Effects on health seen as corrosion/ irritation.

SAFETY DATA SHEET

According to Commission Regulation (EU) No. 2015/ 830 Annex

	TULPE FORWARD	The date of compilation:	2010-04-12
		Revision:	2016-05-02
		Version No.	6

Indication of any immediate medical attention and special treatment needed:

In the workplace must be first-aid equipment, instruments eyes flushed.

5. FIREFIGHTING MEASURES

Extinguishing media	The mixture is not flammable. Extinguishing media: water, water spray. Fire-fighting equipment must be selected assessing the properties of around burning materials.
Special hazards arising from the substance/ mixture	It is necessary to know the properties of other chemical substances or mixtures used or stored together.
Advice for firefighters	During the fire, wear respiratory protective equipment and chemical resistant/protective clothing. Protective personal equipment must be chosen assessing the properties of burning around materials.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	Sufficient ventilation/ respiratory protection, contact with skin, eyes prevention. Do not breathe vapors. Use appropriate personal protective equipment as indicated in Section 8.
Environmental precautions	Do not pour any spilled out material to the local drains, surface water or nature environment.
Methods/ material for containment and cleaning up	Absorb with liquid-binding material (sand, diatomite, universal binders, sawdust). Neutralize residues and wash off with water. It is prohibited discarding the material in the trash basket or pouring back into the original container. Dispose gathered material according to the instructions. When spills of large quantities, it is necessary to inform the rescue service.
Reference to other sections	View sections 8 and 13.

7. HANDLING AND STORAGE

Precautions for safe handling	Store in a tightly closed original packaging in dry ventilated area. Do not store together with acids, strong oxidants, light metals. Do not damage packaging. Keep container in the temperature not lower than 0°C and not more than +35°C away from away from sources of heat, direct sunlight.
Conditions for safe storage, including any incompatibilities	For the professional use only. Use only in a well ventilated area, where exhaust ventilation is equipped strictly in accordance with the instructions. Use common rules/instructions when working with chemicals. Do not mix with other chemicals. During the process do not eat, drink or smoke. Do not allow concentration in the air to exceed allowable threshold. Use appropriate personal protective equipment as indicated in Section 8.
Specific end use(s)	For the professional use only.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Control parameters according to HN 23:2007	Not determined/ no data.
---	--------------------------

SAFETY DATA SHEET

According to Commission Regulation (EU) No. 2015/ 830 Annex

	TULPE FORWARD	The date of compilation:	2010-04-12
		Revision:	2016-05-02
		Version No.	6

Exposure controls

Appropriate engineering controls	General, local exhaust ventilation. Avoid the spills, and any contact with this mixture, see Section 7. Avoid the spills, contact with ground and sewage system.
Personal protective equipment:	
General protective and hygienic measures	Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of the work. Avoid contact with eyes and skin.
Hand and body protection	Protective gloves. The material of the gloves should be resistant to the substance/ mixture. Penetration time of the material check out with manufacturer. Protective clothing, footwear.
Eye protection	Protective safety glasses, face covering shields.
Respiratory protection	In case of insufficient ventilation in case of accidents - protection against aerosols must be used for half masks with filter for protection against harmful liquid aerosols; against gases and particles - filtering half masks with valves.
Environmental impact control	See sections 6 and 12.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form	Liquid
Color	Clear, light yellow
Odor	Specific
pH, 1 %, 25°C	~ 10,8
The relative density, g/cm ³ , 20°C	1,05 – 1,08

10. STABILITY AND REACTIVITY

Reactivity	In contact with aluminum, nickel, zinc, copper and copper alloys may be released hydrogen.
Chemical stability	Under normal conditions, and if strictly followed the rules of safe use, the mixture is stable.
Possibility of hazardous reactions	Reacts with acids, strong oxidizers.
Conditions to avoid/ incompatible materials	Avoid high temperatures, direct sunlight, acids, oxidizing agents, light metals.
Hazardous decomposition products	In case of fire or high temperatures heated - toxic nitrogen oxides. Reaction products depend on the substances/mixtures involved in the chemical reactions.

SAFETY DATA SHEET

According to Commission Regulation (EU) No. 2015/ 830 Annex

	TULPE FORWARD	The date of compilation:	2010-04-12
		Revision:	2016-05-02
		Version No.	6

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity	On the basis of chemical information, it can be said that the mixture is not characterized by toxicity when swallowed by experimental animals.
Skin corrosion/irritation	Causes skin irritation.
Serious eye damage/irritation	Causes severe eye damage.
Respiratory or skin sensitisation	Not determined/ no data.
Germ cell mutagenicity	On the basis of chemical information, it can be said that the mixture is not characterized by germ cell mutagenicity: no evidence of mutagenic effect of components.
Carcinogenicity	On the basis of chemical information, it can be said that the mixture is not characterized by carcinogenicity: no evidence of carcinogenicity effect of components.
Reproductive toxicity	On the basis of chemical information, it can be said that the mixture is not characterized by reproductive toxicity: no evidence of reproductive toxicity effect of components.
STOT-single exposure	Not determined/ no data.
STOT-repeated exposure	Not determined/ no data.
Aspiration hazard	Not determined/ no data.
Additional toxicological information	The effect depends on the concentration and on time from one second to minute.

12. ECOLOGICAL INFORMATION

Toxicity	On the basis of chemical information, it can be said that mixture is not characterized by toxicity categories.
Persistence and degradability	On the basis of chemical information can be said that the product is biodegradable. Decomposes in water, dissociates. EDTA biodegradation 5%. The biodegradation process of mixture (surfactants) in the environment is in accordance with requirements of Detergents Regulation No 551/ 2009.
Bioaccumulative potential	Not accumulate in fatty tissues.
Mobility in soil	Soluble in water, spread out, neutralize. Before being released into waste water or sewage system must be diluted with water or neutralized.
Results of PBT and vPvB assessment	Components are not classified as PBT and vPvB substances.
Other adverse effects	Threat to aquatic and soil organisms can be caused by changes in local

SAFETY DATA SHEET

According to Commission Regulation (EU) No. 2015/ 830 Annex

	TULPE FORWARD	The date of compilation:	2010-04-12
		Revision:	2016-05-02
		Version No.	6

environment's pH.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods:

Disposal of product	Waste must be managed according to the Waste Management Act. Do not dispose in the trash, local and storm sewage system, surface water or environment. Waste code: 07 06 fats, grease, soaps, detergents, disinfectants and cosmetics waste; 20 municipal wastes (household waste and similar commercial, industrial and institutional wastes) including separately collected fractions; 20 01 29* detergents containing hazardous substances; 20 01 30 detergents other than those mentioned in 20 01 29.
Disposal of packaging	Packaging waste must be handled according to packaging and packaging waste management act. The product must be diluted with water or neutralized before released into sewage system. Washed and dried packaging can be reused or given back to packaging waste management companies. Packaging waste code 15 01 02 plastic (including PET) packaging; 15 01 10 contaminated packaging or containing dangerous chemical residues.

14. TRANSPORT INFORMATION

Transport classification	Land transport ADR / RID (international/internal transportation).
UN number	Not applicable.
Special precautions for user	Do not damage packaging.

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture:

Commission Regulation (EC) No. 286/2011; 1272/2008; 1907/2006; 2015/830.

Commission Regulation (EC) No. 551/2009.

HN 23:2007 "Occupational exposure limit values. Measuring the Impact Assessment and General Requirements".

European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR)

Chemical safety assessment Chemical safety assessments are conducted for present substances (tetrasodium ethylene diamine tetraacetate).

16. OTHER INFORMATION

Explanations of Hazard symbols and numeric characters (described in Section 3):

Acute Tox. 4* Acute toxicity, category 4.

Eye Dam. 1 Serious damage to eyes/eye irritation, category 1.

SAFETY DATA SHEET

According to Commission Regulation (EU) No. 2015/ 830 Annex

	TULPE FORWARD	The date of compilation:	2010-04-12
		Revision:	2016-05-02
		Version No.	6

H302 Harmful if swallowed.

H318 Causes severe eye damage.

Abbreviations and acronyms:

PBT persistent, bioaccumulative and toxic chemical substances

vPvB very persistent and very bioaccumulative chemical substances

This safety data sheet must be available to anyone who works with this type of chemical product. Data is in line with our current knowledge and it describes a chemical product, offers safety, occupational health, and environmental recommendations. This information will be added if new data about this chemical product will be ready. Material Safety Data Sheet does not disclose any specific chemical characteristics of the product.
